# Meet the New Leader in Mobile Personal Safety

Libris Aura™

## Not Just Smarter. Sleeker.

Say hello to the Libris Aura, the next evolution in mobile PERS. Designed with elegance and engineered for performance, the Libris Aura is already turning heads across the industry.

We've elevated the user experience by refining the areas that matter most:

**Design & Comfort:** Sleek and lightweight with flexible wear options that feel natural, whether worn on a belt or lanyard.

**Battery Life:** Smart low-power mode conserves energy when at home, extending battery life for up to 3 days.

**Ease of Use:** Thoughtfully simplified with intuitive buttons and a clean layout for everyday confidence.

**Fall Detection:** Built on the industry's most trusted technology, now enhanced with an altimeter sensor for even greater accuracy.

The Libris Aura doesn't just protect,  
it impresses.

Dealers are already talking about the design.  
Now's your chance to lead with it.

Want a closer look?  
Let's talk.
