• Default Code

Default User Code: 1234 Default System Code: 9876

• Download APP - Smart Life

Apple APP Store

Google Play Store

- iOS users, please scan the Apple App Store QR code.
- Android users, please scan the Google Play Store QR code to download.
- After downloading the app, please enable all usage permissions for the app in the phone settings.

• Connect Smart Panel to Smart Life APP

1. This security panel only supports 2.4GHz WiFi networks. Make sure your router is set up correctly and can connect to the Internet.
2. When adding the security panel to the Smart Life app, please turn on the phone WiFi and Bluetooth, and confirm that the phone is connected to the 2.4GHz WiFi network unless you have a smart switching router.
3. Connect the security panel to the power supply, turn the backup battery switch on the back of the panel to the ON position, and follow the instructions on the screen.

• ***IMPORTANT: Avoid Charges from Smart Life app SMS Notification Service!**

'Phone' and 'SMS Notifications' under Notification settings in the Smart Life app are NOT affiliated with OSI Go Direct. Please do not enable them, as they are a paid subscription service.

• How to Pair the Accessories

1. Tap the Connection icon, enter the System Code (Default: 9876), and
2. select the accessory type: Sensor / Controller / Doorbell / Keypad.
3. Tap +, then select the sensor type: Entry / Motion / Urgent / General.
4. Keep the default settings. Select Name to rename the sensor, if desired. Select Pair, then trigger the accessory to complete pairing.
